

Horses Causing Damage To E. I. D. Farmers, Sheepmen

District Farmers May Send Delegation to Edmonton for Action.

Horse ranchers—who do not keep their horses at home—are going to be in trouble soon if the united action of those who are suffering serious damage can accomplish anything.

A large delegation of sheep and cattle men and farmers was in Brooks on Tuesday to see the Board of Trustees of the Eastern Irrigation District in regard to their troubles.

They claim that the situation is becoming unbearable in the western part of the District and they propose to get the nuisance abated. It is understood that arrangements are under way for a delegation to visit Edmonton in the near future to take up the matter with the proper government authorities and get some effective means of dealing with the situation.

MAKEPEACE

(By Our Correspondent)

Rain is needed and looked for, the crops are slow despite the early spring but rain would change the crop outlook.

Mr. and Mrs. Ralph Arrison have been spending the last two days at the home of Mr. and Mrs. B. Schor. Mr. Arrison is now a Pilot Officer and is posted to Clearholm for an eight weeks course.

Mr. and Mrs. E.W. Campbell and Carl Larsen were Sunday dinner guests of S. Nelson.

Mr. Nelson returned from the Hospital last week and is improving slowly.

Miss Helen Martin's home for a few days after a total operation at the Bassano Hospital.

Mr. and Mrs. Dick Gilling were weekend-end visitors at the home of Mr. and Mrs. Fred Bulger.

Mr. Sid Rodhouse, went to Edmonton in connection with school affairs.

Mr. and Mrs. E. Brokes have as their guests Mrs. Brokes' brother Mr. Sykes of Montana.

BASSANO MOVES INTO FIRST PLACE IN LEAGUE

Defeat Makepeace 17-6 in Sunday Game.

The Bassano Club took first place in the league standings on Sunday by overcoming Makepeace by a score of 17-6, while Countess downed Gem on the same day with a final score of 18-10 in the other league game.

In a hard fought game that saw Bassano overcome a one run lead in the fifth inning to win going away, Makepeace bowed to Bassano on Sunday. In the game, four pitchers were needed for a total of twenty-five runs by opposing batters.

Bassano started out in good style by scoring three runs in the first inning and then added another in the third. Makepeace, however came back strongly and scored two runs in the third and three more in the fourth to tie 3-3.

In the sixth inning, Bassano scored three times and twice more in the seventh. Three more runs crossed the plate for Bassano in the eighth. Makepeace, not to be denied, made a strong comeback and scored three more runs before they were retired bringing the score to 12-6 for Bassano.

In the ninth inning Bassano brought in five more runs to their credit while holding the opposition scoreless. The final score was 17-6 in Bassano's favor.

Battery for Bassano was Hayes, Connolly, and McBride.

For Makepeace: Heyford, Nail and Arison.

The game, though free scoring, was very exciting and much brilliant ball was played. The teams will play the final game of league play in Bassano next Sunday and a good game is assured.

Countess and Gem will play their final league game next Sunday at Gem.

New A. A. Gun Platform Built In Twelve Days

In twelve days a workshop in the English Midlands has produced an anti-aircraft gun platform of simplified design which has now been accepted as standard.

The original design was a riveted construction of rolled steel sections, demanding many man hours of metal. A simple design of sheet metal construction, arc-welded instead of riveted, was suggested. The workshop asked: how long it would take to turn out a steel platform.

It was promised within 14 days. Four draughtsmen, working under the chief designer, produced the drawings over night. Construction began in the morning and went on continuously day and night. In ten days the components were ready for assembly, and in two days more the completed platform was towed off for test—48 hours before the stipulated date.

Can Obtain Treatment

Under new regulations issued recently any man who has been rejected or discharged from the active army for physical disability can now, providing he is suffering from a remedial defect, obtain treatment at the expense of the government. This covers hospitalization, treatment, operation and expenses. During the time of hospitalization single men will be paid \$9 a week and married men \$13. If the remedial treatment is successful, the man must join the army.

July Celebration To Be Biggest Yet

Due to the cancellation of numerous celebrations this year, on account of the war, it is expected the attendance on July 1st will greatly exceed previous years. To meet this situation the finest program ever seen here has been arranged for the day. The program will be assured to all present.

Included in the large entertainment will be the largest race card ever presented here, with fourteen races scheduled for the day. The racing program is to be handled by B. Hatley and S. Rodhouse.

Probably the greatest drawing for attraction for a large number of those present will be the grand performance on the stage.

This years attraction will feature the show that is playing at Red Deer, Olds and Lacombe.

This is a larger show than last and will feature a review numbers in beautiful costumes, International dancing, Acrobatics, and last but not least Song and Dance numbers in solo and duet.

The performance is truly entertaining and will prove an afternoon to be long remembered.

Carnival booths will provide a break in the afternoon, for those who wish to try their luck on the ten games.

There will be 12 booths in the break in the afternoon, for those who wish to try their luck on the ten games. The booths will include: Knockout, Hitler's Block Off, Punch Boards, Wheels of Chance and all the other favorites of past years. This is the best carnival yet for more booths and better prizes.

In the evening The Carnival and Dance will hold full swing in the Curling Rink Building. Len Davis in this place orchestra will play at the dance at which a capacity crowd is expected.

All in all the day is expected to prove highly successful from the standpoint of entertainment and it will be well worth coming a great distance to see. Time not of effort are being spared to make the people attending the day forget for one day the trying circumstances that have the world in a turmoil.

Born at the Hospital

To Mr. and Mrs. E.C. Deitmer, a daughter on June 11, 1942.

To Mr. and Mrs. Roy McLaren, Bassano, a son on June 14, 1942.

To Mr. and Mrs. Andrew Berlinger, Bassano, a daughter on June 11, 1942.

Canadian Pacific Air Lines Girls Keep Trainers Flying

CANADIAN PACIFIC AIR LINES are making a notable contribution to Canada's war effort in the elementary training and engine overhaul fields. The young ladies shown above are working long and hard in the production end of the flying game and their trained efforts are of real importance in the task of blowing Hitler and Hirohito off the map.

A shop located at strategic points throughout the Dominion, girls who were once stenographers, sales girls and students, are now being trained under the Canadian Pacific Air Lines banner. Picture on the left shows Miss Iva Lano putting all the pieces of a broken engine together.

To back up her brother, Trooper Wesley Lane, who is overseas with the Fort Garry Horse. With her is Miss Marjorie Curran twenty, and both of them are making the wing part of a right hand picture shows Miss Marjorie Stevenson, who confesses that she would rather assemble instruments than sell dry goods in a department store. Her heart is in the work and the plane goes together with a will. The lower right picture shows Florence Norton in a Canadian Pacific Air Lines uniform, working on an engine overhaul plant. She is teasing valve screws, tanks, a Jerry-fry, her old job of clerk in a dry goods store.

All the girls in this industry have one thing in mind and that is to keep the training planes flying. This is the kind of spirit that Hitler can't match and it is one of the factors that will eventually soundly beat him.

In Police Court

Fred Metcalfe was fined a total of \$12 this week for driving his car on purple gasoline.

His car was tested for colored gas on the night of June 13. The car was seized and impounded for fourteen days.

Norman Curtis, who was arrested by Constable Allen on June 11, when in possession of a stolen truck, was sentenced to two and a half years in Fort Saskatchewan in Medicine Hat last week. He faced charges of breaking and entering, theft, and theft of a place of business.

MAY RATION COAL

Public Advised To Get Fuel Supply

Coal may be rationed both in Canada and the United States this winter, J. McG. Stewart, federal coal administrator for Canada, told the convention of the Canadian Coal Association.

If rationing of coal goes into effect in the United States it is a result of transportation conditions, it will surely be rationed here, almost as a certainty," he said.

Survey Labor On Canadian Farms

Tabulation of a recent survey of the farm labour situation in Canada by the Economics Division, Dominion Department of Agriculture, are now complete.

The survey was designed to provide fuller information on what has taken place with respect to agricultural workers since the war began. According to preliminary figures, the quantity of whole-family help on Canadian farms in 1942 showed a reduction of about 10 per cent from 1941. The largest percentage decreases were indicated in Alberta, Nova Scotia, Saskatchewan, British Columbia and Manitoba. Female family help on farms showed a decrease of 4 per cent in 1942.

The amount of hired help on a yearly basis showed an increase of 24 per cent for 1942 over all provinces, with New Brunswick the only exception to the general trend. This yearly increase in yearly help is apparently due to two factors. First, it has been found necessary to replace family help leaving the farms by permanent hired hands, and, secondly, farmers are seeking to protect themselves against a seasonal shortage by hiring year-round men.

LETTERS TO THE EDITOR

Brooks, Alta.
June 19, 1942

To the Editor:
Yehi Bassano, how do you like your trees now?

Early this year you made fun of the way the trees were trimmed. Now we have it on good authority that your trees look better than ever.

Any time you need advice on trees let us know.

Signed
The Brooks Tree-trimmers Inc.

Four Hundred War Ships Built Since War Began

More than 400 warships have been added to the naval fleets of the British Empire since the war began.

It is disclosed in the new edition of "Jane's Fighting Ships" the acknowledged authority on all the navies of the world. Names are given of nine battleships, six aircraft carriers, 22 cruisers, four minelayers, 16 destroyers, 22 submarines, 16 sloops, 119 corvettes, and 119 other naval vessels which were not completed at the outbreak of war. In addition to these, 72 destroyers, 7 submarines, 18 minesweepers, 41 corvettes and 37 trawlers have had their names published in connection with Warship Weeks in Britain's National Service Campaign.

"Jane's Fighting Ships" also calls attention to the surprising development of warship building in the British Dominions, especially Canada, where sloops, corvettes and minelayers have been coming off the stocks in numbers undreamed of before the war. Several destroyers it is recorded, are also in hand in Empire shipyards.

No less impressive are the collated particulars of enemy losses. Since war began Germany has lost the battleship "Blücher," the armored ship "Admiral Graf Spee"

Red Cross Drive Yields \$1,824.79

Previous Report	Wagon	Cash
Bassano	\$114.70	\$284.11
Makepeace		16.50
Rosemary	5.00	3.00
Gem		4.28
Mr. J. L. Ryan		30.00
Mr. G. Friesen		17.40
Mr. W.S. Pollock		60.00
Mr. L. Standen		49.50

Total to Date \$1824.79

A new small amount is still outstanding and will be acknowledged as received.

The executive and Finance committees wish to thank all donors for their generous contributions and the splendid assistance given and the splendid results achieved, exceeding the quota by \$1824.79.

A meeting of the executive is called for Friday, the 19th, at five o'clock in the afternoon, at the nearby all the Red Cross.

Don't forget to roll out the rubber on the scrap. Mr. F. Walker donated his truck and services to take 1000 pounds of rubber to Calgary for the Red Cross.

Mr. Milroy is loading a car of scrap up to this week. Keep up the good work.

35 YEAR OLDS TO BE CALLED

Single men and childless widowers aged 35 and over, and including 35 years of age are subject to compulsory military training under a proclamation tabled in the house of commons this week by War Services Minister Thoson.

the cruisers "Blücher," "Karlruhe" "Kohn," "Konigsberg," "Leipzig" 21 destroyers, 18 torpedo boats, nearly all the 58 submarines built before the war and about 80 other warships.

They have lost the battleship "Conte d'Elvour," 11 cruisers, 27 destroyers, 14 torpedo boats, 18 submarines and 27 other vessels, while Japan's losses up to the end of April included the battleship "Haruna," 18 cruisers, 15 destroyers, 13 submarines, 16 minelayers, carriers and 7 other vessels.

These facts are taken from "Jane's Fighting Ships," published by Sampson Low, Marston and Co. Ltd., London.

TWO LOCAL MEN HELP IN SALVAGE CAMPAIGN

Mr. Melvin Milroy and Mr. Louie Simolin are doing their share in the collecting of scrap to win the successful prosecution of the war.

These two men have undertaken the task of cleaning all the scrap metal out of the basement of Roy Scott's Garage. Working in their spare time they are hauling all the scrap out of the basement and piling it up to loading. They are donating their work, as Mr. Smith is the scrap to the Red Cross.

Mr. Milroy is also collecting scrap as the agent here for the International Harvester Co. in their drive to divert thousands of tons of scrap metal to war industries.

They are told that Mr. Milroy has one carload of metal ready to ship at the present time.

Come on everybody, farmers especially. Help is getting the export and hopes that you will follow it.

With the amount of scrap on the farms around here there should be a carload shipped every week.

We know that you figure the scrap on your place is valuable to you for repairs and other things, but remember a few tons of scrap is a cheap price to pay for your freedom.

On your next trip to town, why bring in some of that pile of scrap metal and doing you are helping to bring this war to a successful conclusion.

Mr. Milroy is also collecting scrap as the agent here for the International Harvester Co. in their drive to divert thousands of tons of scrap metal to war industries.

THURSDAY, JUNE 18th, 1943

There must have been a lot of ripping of red tape at Ottawa when it was decided to let Canadian supporters of the war effort see something of Canada's new army. For be it known Canada is to have an "Army Week" all across the country—June 29 to July 5. A scout from the adjutant-general's branch at Ottawa, after a cross country run, reported that "unlimited support had been pledged by everyone he met." Wonder what the brass has expected—an uprising of the natives to repel the invasion?

Sir Jeremiah Colman made an eight million dollar fortune out of mustard. In this country we would say Jerry cut the mustard. The British government cut in for the half of the fortune when Colman passed on recently.

Just when most people are about to feel a bit virtuous through cutting sugar allowances a member of the advisory committee of the Nutrition Foundation of the United States makes the startling announcement that sugar has absolutely no nutritional value and that sugar rationing can be of great benefit to the general health of the nation.

Canadian Red Cross has one sixth of Canada's population in voluntary "active services."

COUPON RATIONING TO AVOID SELFISHNESS

Recent dispatches from Ottawa reveal that the Government will shortly extend the coupon rationing system, which makes for fairer distribution of goods and prevents hoarding.

At present confined to gasoline, the coupon system will be extended to sugar in the near future and tea, coffee and some other food articles will rationed shortly after. The coupon system will probably be eventually extended to cover clothing and textiles.

Hoarding rationing has not altogether proved a success. While consumption of sugar has dropped since the Government asked for co-operative rationing, there is a certain class of people who, actuated by greed and selfishness, take advantage of the honor system to benefit themselves. A rationing system will restrain purchases by these people and will conserve shipping space vital to the war effort.

Coupon rationing does not mean that any great sacrifices will be demanded of citizens. It will simply prevent hoarding and will induce sensible buying which will prevent shortages in articles where none need exist if citizens restrained themselves to their current needs.

'Nation Builders' To Be Shown At The Orpheum

Included in the current program at the Orpheum Theatre is "Nation Builders", a short feature which tells the story of the home front army striking a tremendous blow for freedom. Produced by Associated Screen Studios, it graphically describes the tremendous task that faced Canadian workmen and engineers in bringing Canada's output of aluminum to its present levels. Early in the war, Canada was already producing four-fifths of all the aluminum on the American continent yet this record volume had to be increased still further. How this was done was one of the biggest air freight jobs in history transported a complete community miles from any highway or railroad is the story of "Nation Builders". In remote north country these men harnessed the water power that was needed to step up Canada's production of the vital metal to the present tremendous quantities.

COUNTESSES NEWS

(By Our Correspondent)

Mrs. V. MacWorman and sons Wayne and Willie of Drumheller are visiting with Mrs. B.P. Cowan.

Miss Donna Gamble is home for a visit. She will remain for about two weeks.

Mrs. MacWorman, Mrs. Cowan and Alice, Herb Lansdale, Mr. and Mrs. P.E. Cowan, and son Johnny, and Barbara and Margaret Church, and Marie Munroe were guests of Mr. and Mrs. Deans on Sunday.

The ball game on Sunday between Countess and Glen resulted in a 19 to 16 victory for Countess. This moved Countess into third place in the league standing.

A penalty of \$5,000 fine has been provided for those who fail to return toothpaste and shaving cream tubes the Wartime Prices and Trade Board has announced. It will constitute a breach of regulations to destroy or throw away used tubes that have contained toothpaste, shaving cream, ointments, lotions and similar products. It is mandatory a person turn in all such metal tubes as soon as empty, to a drug, cigar or departmental store.

E. I. D. NOTES

Any contract holder whose water rates are not paid up should read this very carefully.

Under recent legislation anyone whose water rates become more than one year in arrears will be liable to automatic cancellation of his contract.

This will become effective at the end of the present year. This word of warning is being issued in simple time to enable those who are behind with their rates to arrange to put the same in good condition before the end of this year.

APPLICATION CARDS FOR COUPON RATIONING OF SUGAR

will be mailed next week to every Household in Canada

Canadians will be required to register so that ration cards, good for the 10 week period, commencing July 1st, may be issued immediately. At the end of that period a coupon ration book, good for six months, will be issued.

HOW TO REGISTER

Residents in Urban Areas not served by Letter Carrier, and Residents in Rural Areas

Application cards will be distributed to all house holders through the post offices on or before June 23rd. Additional cards will also be delivered for every person resident in the household who bears a different last name from the head of the household. If needed, extra cards may be secured from local post offices.

These application cards should be filled out immediately and dropped in the nearest mail box or post office. A pamphlet giving complete instructions will be delivered with each card. As soon as your name is duly registered at headquarters, ration cards, good for a ten-week period, will be mailed to you—one ration card for each person in your house. These will be for sugar only.

Coupon Rationing for Sugar Becomes Effective July 1st

Beginning July 1st, no one will be permitted to buy sugar for regular domestic use without a ration coupon.

Prompt co-operation on the part of the public in filling out and returning their application cards is necessary to ensure return of the ration coupon card in time to purchase sugar on or after the above date.

Remember—the amount of sugar allowed each individual under the new coupon rationing plan will be exactly the same as allowed at present—1 pound per person per week.

DO NOT SURRENDER YOUR APPLICATION CARD TO ANY UNAUTHORIZED PERSON

Suspension Act

Contending that serious consequences will result so far as Alberta business is concerned if it is found that the Alberta Government has the power to pass such legislation as the Legal Proceedings Suspension Act, S.H. McCuaig of Edmonton, counsel for the Alberta Mortgage Loan Association, urged in Alberta Appeal Court that the Act be declared ultra vires.

The act passed at the last session of the legislature suspends all court actions involving the Debt Adjustment Act until 60 days after the Privy Council rules on the validity of the latter act. This ruling is expected sometime this summer.

SAW! READ! HEARD!

We hear that one local man, who is slightly bald-headed (We will call him Mr. Brown) went into the local drug store to purchase a bottle of hair tonic. The druggist tried to convince Mr. Brown that the hair he had for sale would even grow hair on a cement sidewalk. Still in a doubting frame of mind this man purchased the bottle of tonic. As he stood in front of the store on the sidewalk a thought struck him.

If you see Bill mowing hair in front of the drug store you will know the reason.

A local young man with a pretty flirtatious girl friend, wrote to a supposed rival: "I've been told that you have been kissing my girl. Come to my office at eleven o'clock Saturday. I want to have this matter settled."

The rival answered: "I've received a copy of your circular and will be present at the meeting."

"Spring cleaning" can sometimes be postponed for a couple of months. Three of the local boys can testify to this.

Harry Corkum says that women and newspapers are much alike, because:

They both have forms;
They always have the last word.
Back numbers are not in demand.
They are well worth looking over.
They have a great deal of influence.

You cannot believe everything they say.
They carry the news wherever they go.
Every man should have one of his own, and not borrow his neighbor's—Bridgewater Bulletin.

And everybody was wondering why the water was running so slow last Monday morning. The editor can remember, in the not too distant past, when he had to hand out cigars on such an occasion.

SALSMANSHIP

A tourist stopped in front of a little country store, dumbfounded at the sight of an enormous display of salt piled on the premises. Back after stack boxes, barrels and bags. Tons of salt inside the store and out. "You must sell a lot of salt," exclaimed the tourist. "No, I don't sell much," replied the storekeeper, "but you should see the guy that came here last week. He could zzzzz brand salt!"

Who Are These Birds Without Wings

A feature designed to acquaint the general public with the work and duties of the "Ground Crew" in the Royal Canadian Air Force.

(Issued by No. 4 Training Command Headquarters, Calgary)

Forward
The Air Crew of the Royal Canadian Air Force is the Pilot, Observer, Wireless Operator, Air Gunner and Straight Air Gunner, are known as the "Glamour Boys" of the Air Force. They undoubtedly earn this title through the thrilling and dangerous nature of their duties. However, little publicity attends the daily deeds of the "ground crew" and yet they are an indispensable unit of the Force. The pilot trusts the men who service his aircraft. He is well aware that his life and the lives of his crew depend upon the skill and knowledge of the mechanic, the fitter, the electrician, the instrument maker and many others. This series of articles is intended to give a general outline of the nature of the work and duties of some of the more specialized trades of the "ground crew" of the Royal Canadian Air Force.

Clerks

The clerk in the Royal Canadian Air Force is another "bird without wings." Everyone knows there must be clerks in an organization of such magnitude but little thought is given to the multitude of duties they must perform and the great responsibility they have due to the nature of their work.

Of all trades in R.C.A.F., that of "clerk" is perhaps the least glamorous of all. Practically all other trades have at least a ground contact with the "birds of the air" but it is not uncommon when a clerk sees a plane on the ground for the first time in a month. This is partly due to the fact that the

clerk works in the Administration Building which is inevitably far removed from the operational area of any R.C.A.F. training or operational establishment. But, with the exception of the musical notes of "reville," drill and pay parades and the occasional scroll from the Sergeant Major, life to the clerk in the R.C.A.F. is very much the same as that of a civilian.

At the outbreak of the present series of hostilities, the R.C.A.F. was not very well known in Canada. It's organization at the time is not questioned here, but, due to other nations of the world casting their lot with Canada in the formation of the British Commonwealth Air Training Plan and selecting Canada as the Training Grounds, the organization we have now is and must be greater and more efficient than it was then.
